Part B

//Url Dashboard ***Make sure that you link is published and can access with anyone
[Microsoft Power BI](#)

Write summary what you have learned or done in this dashboard.

1. It is one of the programs that you can make your dashboard clean and understand.
2. Microsoft can almost pull any dataset from anywhere for example csv, Microsoft Excel, SQL and others.
3. Reading dataset from dashboard is easier than reading them from the table.
4. There are many types of graphs or chart that you can create.
5. You can select specific data as well by clicking on chart.
